INTRODUCTION

**Merkel Independent School District
Mission Statement**

The mission of the Merkel Independent School district is to provide, to the full extent of their individual abilities, all students with the skills of logical, independent, and creative thinking, and effective communication. Further, as a result of instruction in our schools, students will acquire a knowledge and appreciation of our citizenship responsibilities, of our economic responsibilities, and of our American heritage. In our schools, learning will occur in an environment of moral values and character, and these characteristics will be communicated to all students. The accomplishment of this mission will be characterized by equity, efficiency, and accountability.

**Tye Elementary School
Mission Statement**

Tye Elementary School believes that every student has the ability to learn and succeed if given the education opportunity to achieve their educational potential. We will endeavor to provide a sound foundation of basic skills, and we will work to enrich each student's mind so he/she will be able to think and communicate logically, independently, and creatively. We will strive to encourage our students to never settle for less than their best. Education opportunities and resources in Tye Elementary School shall be distributed with equity for all students and we will maintain accountability with demonstrated results for continuous improvement of our school system.

Philosophy

The 2007-2008 Tye Elementary School Campus Plan has been developed with the overall objective of fulfilling the mission of the Merkel Independent School District. Its development has been guided by a commitment to implementing the effective school correlates, achieving significant growth in student academic achievement, and effective staff development. While concentrating on the specific needs of our campus and district, we have taken care to assure that our goals and objectives support the goals and objectives of the State Board of Education. These goals and objectives are communicated to all stakeholders.

The site-based decision making team is a committee of teachers, administrators, parents, and community members. The team identified needs, set timely goals, and designed activities to meet those goals. The district has committed to providing all the necessary resources that the persons responsible will need to meet the objectives and carry out the developed strategies. Each staff member is charged with the implementation, monitoring, and evaluation of the effectiveness of this plan. As in any improvement plan, the process is ongoing.

Tye Elementary School is an improving school. We are committed to excellence. This plan is an organized attempt to move us in that direction.

Needs Assessment
(School-Wide Component 1, 7 and 8)

The Tye Elementary Site-Based Committee identified strengths and weaknesses based on data from multiple sources to develop the campus improvement plan for the 2007-2008 school year. Data sources include TAKS and SDAA scores, attendance records, discipline records, parent sign-in sheets for campus activities, TPRI results, DRA results, retention rates, and data from special programs such as Adequate Yearly Progress and "Highly Qualified" faculty report. The trends and gaps present in this data determined the priorities for improvement to be targeted this school year.

Tye Elementary School is a Title 1 School wide campus with 72.73% low-income students. There are 212 students in Early Childhood through fifth grade. There are 37 staff members on the campus who recognize and accept the responsibility for the growth and improvement of our students on the Texas Assessment of Knowledge and Skills (TAKS). Inclusion has been implemented in grades 4 and 5 with trainings and staff development opportunities provided for grades K – 5.

In summary of the above data, Tye Elementary School had a 97% passing rate in 3rd grade reading and a 97% passing rate in 3rd grade math. In 4th grade, 90% passed reading, 86% passed math, and 95% passed writing. In the 5th grade, 100% passed reading, 100% passed math, and 100% passed science. Students receiving commended performance in 3rd grade were 22% in reading and 17% in math. In 4th grade, students receiving commended performance were 24% reading, 14% math and 5 % writing. Commended performance was received by 31% in reading, 36% in math, and 43% in science by the 5th grade students. The goals and objectives that have been chosen by the team will help us as we strive to meet the increasing state standards.

Based on disaggregated data from the 2006-2007 TAKS results and the AEIS-IT program, accelerated interventions and instruction will be provided for students who are unsuccessful in mastering reading and math skills.

Along with the increasing state standards, the U.S. Department of Education implemented the No Child Left Behind Act. This act has identified five performance goals and objectives that focus on student achievement. These national goals and objectives correlate with the state, district and campus goals and will be noted at the top of each reform strategy.

In looking at the ten components for the plan, we found that transition from early childhood programs to local elementary school programs is addressed by the set-up of our campus. Students share lunch, physical education class, playgrounds, and interact with the kindergarten teachers daily. The spring “Kindergarten & Head Start Round-up” registration provides parents with information concerning the school year. The Head Start class is in the same building as a kindergarten class, and the kindergarten buildings are located at Tye Elementary; therefore, the pre-school students are familiar with the elementary teaching staff and campus. The transition from elementary to middle school is addressed during the school year. Fifth grade students attend a pep rallies, a play, and cheerleader try-outs. During the last six weeks, Merkel Middle School plans an orientation day for our 5th grade students to attend where they give the students a tour of MMS campus. Transition to help students and parents is addressed at this time.

independent, and creative thinking, and effective communication. Further, as a result of instruction in our schools, students will require a knowledge and appreciation of our citizenship responsibilities, of our economic responsibilities, and of our American heritage. In our schools, learning will occur in an environment of moral values and character, and these characteristics will be communicated to all students. The accomplishment of this mission will be characterized by equity, efficiency, and accountability.

School and Classroom Setting

Tye Elementary School is dedicated to meeting the needs of all students from our pre-kindergarten program through fifth grade. A strong emphasis is placed on improving and mastering reading skills through the use of the Accelerated Reader program. Tye Elementary School is well equipped with computer technology and students are given opportunities to improve those skills. Special needs students are assisted by special education instructors in both inclusive and resource classroom settings. All Tye Elementary School students have opportunities for enrichment through our science, music, physical education, and gifted and talented programs.

TITLE I PROGRAM

Title I is a federal assistance program designed to enhance opportunities for students to meet and maintain grade level skills (TEKS-Texas Essential Knowledge and Skills). The No Child Left Behind Act (Public Law 107-110) requires that:

- school districts have written policy regarding parental involvement;
- parents be involved in the design, operation, and evaluation of the Title I programs;
- parents be consulted about home/school activities and be trained to help their children and;
- whenever possible, activities should be presented in the language spoken by the majority of Title I parents.

At Tye Elementary School, Title I funding is used to promote educational programs that assist students to:

- succeed in the regular classroom;
- attain grade level proficiency;
- improve their achievement in basic and more advanced skills.

Title I funds also help support our school district in providing staff and educational services. Parents, teachers, and administrators have worked together to initiate our Title I program. This program is an important part of our curriculum and meets the needs of ALL students at Tye Elementary School.

SUPPORT PROGRAMS AT TYE ELEMENTARY SCHOOL

Tye Elementary School provides a variety of support programs to promote each student's achievement to reach grade level or above. These programs include Accelerated Reader, Accelerated Math instruction, Elementary Science Labs, UIL competition, Extended Day Tutorials, and Reading Improvement classes. All staff members at our campus support these programs across the curriculum.

The challenge is to provide the optimum strategies to allow each student to be successful. Our staff constantly works with and strengthens our programs with each student's success as the end result. TAKS scores are analyzed each year and used to improve teaching strategies for each student. Tye Elementary School also seeks to provide the best inclusive or resource instructional atmosphere to
